TEAK
Tectona grandis

Luxury | Longevity | Marine-Grade

Teak is the gold standard in hardwoods—luxurious, durable, and rich in natural oils. Known for its **golden-brown** hue and resistance to moisture, pests, and decay, Teak is ideal for both indoor and outdoor **high-end applications**.

Key applications:
- Premium interior flooring
- Luxury outdoor furniture
- Boat building & marine use
- Decking & architectural details

BANGKIRAI
Shorea laevis

Hardwearing | Outdoor-Ready | Natural Grip

Also known as Yellow Balau, Bangkirai is renowned for its exceptional **strength** and **weather resistance**. Its natural density and durability make it ideal for demanding **outdoor applications**.

Key applications:
- Decking
- Pergolas
- Cladding
- Exterior structures

KAPUR
Dryobalanops lanceolata

Versatile | Durable | Affordable

Kapur is a high-quality Southeast Asian hardwood, prized for its **durability**, **workability**, and attractive **reddish-brown** hue.
Its moderate density and natural resistance to decay make it suitable for both structural and **decorative applications**.

Key applications:
- Exterior joinery & cladding
- Indoor flooring & furniture
- Structural elements
- Bridges & boardwalks

MERANTI
Shorea spp.

Elegant | Lightweight | Workable

Meranti is known for its rich reddish-brown tones, smooth texture, and **excellent workability**. It is moderately durable and **lightweight**, making it ideal for **indoor applications**.

Key applications:
- Interior paneling & moldings
- Doors & window frames
- Furniture & cabinetry
- Indoor and semi-indoor flooring
